## SKILLS

- HTML5
- CSS3
- SCSS/SASS
- Bootstrap
- Tailwind
- JavaScript
- jQuery
- React JS
- NextJS
- C#
- MS SQL

## NON TECHNICAL SKILLS

- Possesses strong analytical skills, with a keen eye for detail, quick learning abilities, and excellent problem-solving capabilities.
- Remarkable patience with reliability and responsibility.
- Ability to collaborate effectively and foster strong, healthy relationships with colleagues.

## AWARD

- Honored with the TechWhiz Award for exceptional technical skills at DigiWhiz.

## WORK EXPERIENCE

### DIGIWHIZ

Full Stack Web Developer

Aug 2024 - Present

- Lead development of full-stack solutions: architect, build and maintain ReactJS/Next.js frontends alongside C# Web API backends.
- Design and optimise MS SQL databases, write efficient queries, and enforce data integrity to support complex business logic.
- Customise and extend Umbraco CMS for client-specific content-management requirements, building custom controllers, views and property editors.
- Mentor and onboard junior developers: conduct code reviews, deliver technical training sessions, and cultivate best practices across the team.
- Contribute to recruiting efforts by screening candidates, participating in interviews and refining the hiring process.

Front-End Web Developer

Aug 2022 - Aug 2024

- Built responsive, pixel-perfect user interfaces using HTML5, CSS3, SCSS and Bootstrap, ensuring consistency across desktop and mobile devices.
- Engineered interactive features and DOM manipulation with vanilla JavaScript and jQuery to enhance user engagement.
- Developed and maintained ReactJS and Next.js applications, creating reusable components and optimising page load performance.
- Managed end-to-end deployment workflows—configuring CI/CD pipelines to push sites to staging and production environments.
